President's Perspective

From Sheila Olszewski

It seems like more and more I am having to apologize for Ed's tardiness with the newsletter. This has been a particularly busy month for him between club work, my "do" list, and flying weather getting better. You can do the math, he has been at the field rather than doing his normal chores.

The Toledo show was a winner. We were happy to see the parking lot prices dropped, only to find the admission was a little higher this year, it just washed out in the end. Although the swap area seems to be getting smaller every year, there is always great things to see downstairs in the vendor area. There was a CNC cutting thingy that seemed to have a lot of guys fascinated! The isles were crowded and the model show was fantastic. Naturally our gang all went home with some type of new aircraft.

At the field, Ed L. and Tom N. worked on the Cold Duck and changed the trans oil- it has been a number of years since that was done and it was about due. Ed O. has the Woods mower back in running order. Along with the seat, there was a number of electrical issues that were not expected and hopefully have all been taken care of. While the Woods was down Tim M. and Ed O. loaned the use of their personal mowers to keep the field cut. Frank B. leveled the patio blocks on the flight line. Jack has corralled a mowing team and (if the dandelions ever go away) the field will look great for more than a day or two. Thanks guys for all your help and hard work!

We will be having a work day within the next couple weeks. To avoid poor timing due to bad weather I will send an e-mail "plea for help" a few days before we have it, and let everyone know what we will want to accomplish. If you have any suggestions for things that need to done, drop me a line.

Keep in mind we have our annual fly in on Saturday June 16th. Plan on making a day if it either flying or just watching and enjoying good company.

See you at the field!

Sheila

Meeting Minutes

April 11, 2011

Submitted by Doug Donner Jr.

The meeting was called to order at 7:00 PM by Sheila with (13) members and (0) guests present.

- A motion was made by Doug M /Jack D. to accept the secretary's report as read. Motion passed.
- A motion was made by Doug M / Al F. to accept the treasurer's report as read and pay bills. Motion passed.

Old business:

- Porta-John door fix
- Gary found a latch on-line, but hasn't purchased it yet.
- Stone will be delivered this week
- Additional patio stones for around the Porta-John will be purchased this week
- Donation letters for the Fun-Fly (June 16th) have gone out

New business:

- Canopy went up last weekend
- New windsock is up
- Donated by Keith Moore
- Dave Herndon has volunteered to mow
- Ed L. will take care of fixing the weed whacker
- April 27th, Matt Kulman's daughter will be coming to the park for school and would like to see some planes in the air.
- Jack Delisle volunteered to come out and fly

Motion to close was made by Doug M / Doug Jr. Meeting adjourned @ 7:20 PM

Equipment Fund:	<u>2274.45</u>
Grand Total:	\$ 5052.24

Young Again

By Jack DeLisle

Mrs. Beauvais kindergarten class

The young lady third from the right in the front row, don't look at the boy in the first row, is Reese Kulman.

Reese and the rest of her Kindergarten class from the Gearing Elementary school in Saint Clair spent the morning of April the 27th having fun at the county park in Goodells and topping the day off by visiting our flying field.

The theme of the visit for the class was math and science that was also fun so Matt Kulman used a transmitter while I held up a plane and showed the kids what happened to the plane as Matt showed them what each control stick did.

Because the plane was powered by electrons we could also demonstrate what the propeller would do when used. We know the kids enjoyed the lesson from their smiles.

The weather was typical Michigan for March but not the last of April and the temperature could have been warmer and the wind a little gentler but the kids just took it as a matter of course and the adults just soldiered on.

The wind was a big factor because flying the planes safely was a concern so only a few flights were put in by John Neil, Jack DeLisle and , saving the best for last, Matt Kulman and Carl Jones flying their helicopters together and doing their Dipsy Doos front and

center.

I doubt that a better demonstration by the Propbusters and River District R/C Eagles could have been presented even with no wind.

Before we get too far along we would give special thanks to Carl Jones, who claimed his boss gave him a long lunch break, Dan Mackey for probably giving up earnings and Matt Kulman who got the whole thing started.

As usual for our kids show, they get to walk the line and get close to our planes and ask the pilots questions.

Fact is, one boy hung around Gary Wilkerson's plane so long we had to practically force him back to the bleacher for the class picture we started out this piece with.

So along with the afore mentioned volunteers we have to thank John Neil and Sheila Olszewski, Daughter Kim and Grand Daughter Brianna for braving the elements and lending a hand.

Of course we have to thank Mrs. Beauvais and the parents of the children for allowing us the pleasure of hosting too.

Matt tells me that we got some great feedback from Mrs. Beauvais and the parents and the kids had fun and plenty to talk about when they got home.

Heh Matt, how about next year and Reese's First Grade class?

And now my theme, To Be Young Again. Don't have to be as long as we can host a nice bunch of lively kids. We can be young again.

Thanks
